Grab Bars

Lowe’s has a wide variety of grab-bar lengths, styles and finishes to match your space, decor and ability. We can also give you great installation tips to ensure that each grab bar is properly placed and secured – or, we can perform the installation for you.

Safer Bathing

There’s no reason to worry about wet surfaces and hard-to-access tubs and showers. Today, excellent options, like a removable shower seat, make showering much easier, especially when combined with a detachable showerhead (available in your choice of finishes).

For more information go to [Lowes.com/AccessibleHome](https://www.Lowes.com/AccessibleHome)

Thoughtful changes go a long way toward making bathrooms safer and more accessible. Add a threshold ramp and nonslip bathmats. Install a chair-height toilet or a wall-mount sink that works with a chair or wheelchair, and adds to your sense of style.

Safer Bathing

Simplify bathing with walk-in (low- or no-threshold) showers and bathtubs, specially designed to dramatically improve access, safety and the beauty of your space. Lowe's offers a variety of durable walk-in shower and tub choices (available in your choice of finishes).

Adding rubber treads on stairs can prevent slips. Textured tiles – or small tiles with numerous grout lines – stylishly reduce the chance of slipping in wet or damp areas. Nonslip rugs should also be used throughout the home.

★317433

15140

Safer Footing

Rugs, stairs, doorway thresholds, electrical cords – these are just a few of the everyday obstacles to safe and confident movement throughout the home. The good news is Lowe’s has all the sure-footed solutions you need to fit smoothly into your home’s look and feel.

256841

361648

Railing

Adding railing on stairs and in hallways is an easy and effective way to prevent falls and provide added support. Lowe’s offers a broad selection of attractive railing types and styles, some available prefinished.

Handles
and Pulls

The right handles and pulls can make all the difference for those with reduced hand strength. D-shaped drawer and cabinet pulls, for example, are much easier to use.

268036

★165324

Ceiling fans can do more than raise your comfort level while helping lower your cooling and heating bills. Installing a remote controlled model also eliminates the need to stretch for the fan's controls.

157284

Easing the Effort

Making your home more user-friendly doesn't have to mean giving up your sense of style. Add single-lever or touch-activated faucets, rocker light switches, and clothes racks that lower for easy access. These products are popular, attractive and thoughtfully designed for ease of use.

Little Things Mean a Lot

Front-mounted kitchen range controls make burners and ovens easier to operate and safer because you don't have to reach across the burners to use the controls. Cabinets with pullout shelves or racks are also easier to open and use.

Ladders and grabbers also help extend your reach.

*

Appliances That Assist

Some kitchen's appliances and cabinets force you to stoop, stretch and bend repeatedly. Instead, choose stylish double-door refrigerators with the freezer section on the bottom, dishwashers that open and load like cabinet drawers, and microwaves installed below the counter, not above your head.

Flooring: Obstacle or Advantage?

In some instances, flooring can actually help mobility. Wood and other smooth-surface flooring such as ceramic tile and vinyl is much easier to walk on than deep-pile and/or thickly padded carpet.

Improving Mobility

Having the freedom to move easily is essential to any home. At Lowe's, we offer solutions that improve mobility, functionality and style – including kitchen counters designed for wheelchair use, and cabinetry featuring rollout shelves, lazy Susans, and pullout tabletops.

Introducing Gatehouse® Modular Access Ramps

Gatehouse makes it attractive.
Lowe's makes it simple.

The Gatehouse Custom Access Ramp System is a modular aluminum frame that can be configured, then finished with your choice of decking, railing and accessories to match the style of your home. Gatehouse is offered exclusively by Lowe's.

*

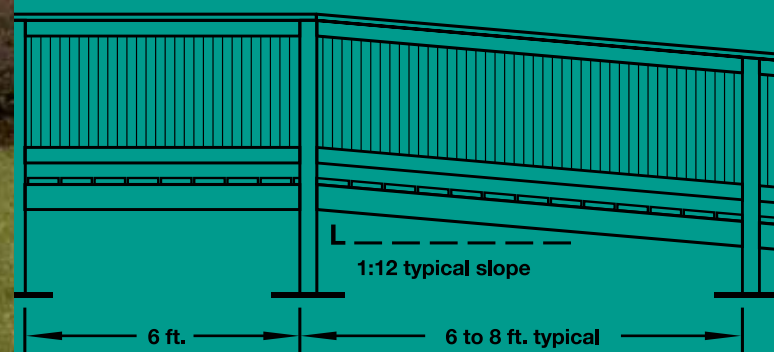

Accessibility never looked better.

Top Choice® lumber enables you to create custom ramps and landings of unrivaled dependability and beauty. Gatehouse's selection of small, portable ramps and folding ramps is also designed to improve mobility around the house.

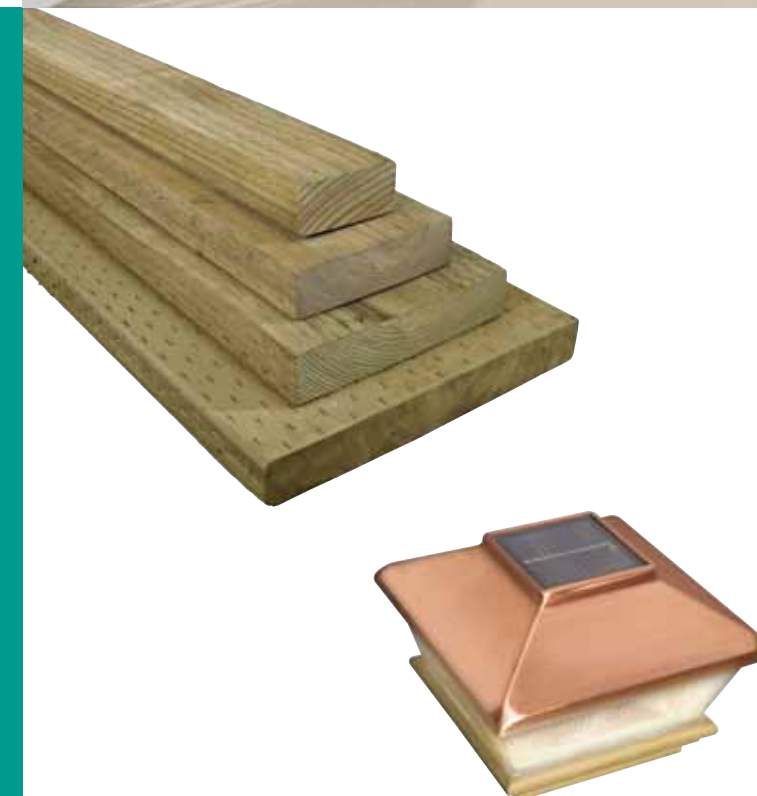

Improving Mobility

Lowe's can help you design the ramp that's tailored exactly to your needs, right down to the railings.

Task Lighting

284361

Illuminate specific areas and jobs with task lighting. For example, under-cabinet lighting is great for instructions and preparing meals. Lamps, recessed ceiling lights and wall sconces can also direct more light wherever it's needed.
