PROJECT TIME: 2 HRS

INSTRUCTIONS

- 1 Set up and protect an area to spray paint either outdoors or in a well-ventilated area.
- 2 Carefully prepare the faux pumpkins, ensuring the surface is clean, dry and dull.
- 3 To create the patterned pumpkins, cut the painter's tape into triangles and place them onto the pumpkin.
- 4 After reading can label for proper application and safety instructions, spray light coats of Fusion All-In-One Metallic Silver in sweeping motions onto the pumpkin. Set aside to dry.
- 5 Once the paint is fully dried, carefully peel off the triangles to reveal the pattern.
- 6 In order to create a dipped look, take off the bottom of the pumpkin and spray using Fusion All-In-One Metallic Copper.
- 7 Spray paint some mini pumpkins using Krylon Glitter Blast in Silver Flash to use as accents in the centerpiece.

MATERIALS

- **Krylon® Fusion All-In-One™ Paint + Primer**

MATERIALS

- **Krylon COLORmaxx™ Paint + Primer**
Bauhaus Gold
- Lantern
- Silk leaves
- Wax candle (battery-operated)

TOOLS

- Gloves

INSTRUCTIONS

- 1 Remove the glass panels gently (make sure to notice how they come back so you can re-insert them the same way).
- 2 Wash and scrub the lantern to remove surface dirt and flaking rust.
- 3 Spray several light coats of COLORmaxx Bauhaus Gold, making sure to turn the piece a few times to reach all sides and angles.
- 4 Pro Tip: Use gloves to reinsert glass panels to keep the glass from smudging.
- 5 Dress the lantern for fall by adding in silk leaves to the base.
- 6 Add in the battery-operated wax candle.

PROJECT TIME: 8+ HRS

INSTRUCTIONS

- 1 Multiple drop cloths may need to be purchased in order to find one suitable for this project. Look for cloths that are evenly hemmed and without soil or large defects in the fabric.
- 2 Create a work surface that will allow the drop cloth to be laid out flat and pulled taut.
- 3 Iron the drop cloth smooth.
- 4 Using the binder clips, attach the drop cloth to the surface, pulling taut and making sure there are no wrinkles.
- 5 Protect the work surface or overspray area with newspaper.
- 6 Create artwork and cut vinyl or purchase a large stencil.
- 7 Select a color to begin with (usually the lighter colors first) and then tape off areas that won't be painted with newspaper and painter's tape.
- 8 Paint open areas with COLORmaxx paint.
- 9 Let dry and remove the masking.
- 10 Continue to mask, prime, paint and let dry until the tablecloth is covered in the design.
- 11 Let dry thoroughly.
- 12 Allow the tablecloth to cure for 72 hours and then heat set with the iron (no steam) before using or laundering.

MATERIALS

- Krylon® COLORmaxx™ Paint + Primer
Satin Burgundy, Satin Jade
- Protective gloves and eye wear
- Newspaper to protect work surface and for masking
- Painter's drop cloth 6' x 9'
- Steam iron
- Painter's tape
- Binder clips, 30-40 large
- Vinyl, vinyl cutting machine or large size stencils
- Large table or plywood over saw horses for a painting surface

Halloween Tablescape

by Spray Paint & Chardonnay, Katie Taylor

Impress guests with a Halloween tablescape made with deep, dark tones!

SKILL LEVEL:

PROJECT TIME: 3 HRS (dry time not included)

MATERIALS

- **Krylon® COLORmaxx™ Paint + Primer**
Flat Black, Gloss Black
- **Krylon Chalkboard Paint**
Black
- Empty glass wine bottles (labels removed)
- Spatula (for label removal)
- Black candle tapers
- Plate chargers
- Chalk

INSTRUCTIONS

- 1 First, remove the labels from the empty wine bottles by letting them soak in warm, soapy water in the sink for about an hour. After soaking, the labels easily scrape off with either a fingernail or a spatula to help with the more stubborn labels. Once the labels are removed, wipe the bottles off to remove any excess tackiness from the label adhesive and let them dry outside, upside down.
- 2 Once the wine bottles are clean and fully dry, set the bottles on a flat, covered surface in a well-ventilated area. Before spray painting, read the label for safety and application instructions. Spray the bottles with Krylon COLORmaxx Paint + Primer in Matte Black.
- 3 Once the spray paint is completely dry, stagger them down the middle of a dining table on a table runner.
- 4 Place black candle tapers in each bottle, firmly twisting the candle in the opening of the wine bottle to ensure that they do not fall over. Please note, spray-painted surfaces are not suitable for direct flame contact, so keep this in mind if lighting the candles.
- 5 Next, it is time to paint the charger plates. Before painting, ensure the surfaces of the charger plates are clean, dull and dry.
- 6 Lay the charger plates on a flat, covered surface in a well-ventilated area. Using Krylon Chalkboard Paint in Black, apply two to three thin coats to each charger and then let them dry. Although Krylon Chalkboard Paint is dry to the touch after 15 minutes, allow the charger plates to dry 3 hours before handling, and twenty four hours before first use.
- 7 After 24 hours of allowing Krylon Chalkboard Paint to dry, rub the surface of the chargers with the side of a piece of chalk and then erase it before writing on the surface.
- 8 To personalize the chargers for a dinner party, write "Here Lies (Guest's Name)" on the top of each charger in chalk, and "R.I.P." on the bottom. To make the letters look like bones, draw tiny hearts at the end of each letter, like a serif.
- 9 Please note, food and drink should not come into direct contact with spray-painted surfaces. Please use a food-safe plate over the charger plates when serving food.
- 10 Add any other desired Halloween details to your tablescape, such as mini-skulls, and enjoy!
