PROJECT TIME: 8 HRS

## MATERIALS

- **Krylon COLORmaxx™ Paint + Primer**  
Satin Ivory (8 cans), Gloss Khaki (4 cans)
- Wood pallets
- Eye protection
- Fasteners
- 4 Swiveling, locking casters
- Reciprocating saw with long carbide-tipped demolition blade
- Pneumatic stapler
- Circular saw
- Wire brush
- Landscape blower

### OPTIONAL TOOLS:

- Miter saw
- Jigsaw
- Table saw

## INSTRUCTIONS

- 1 Before you begin, ensure you have a solid work station and are following proper safety instructions while operating around saws and blades.
- 2 Break apart the pallet by cutting the pallet nails with a long carbide-tipped demolition blade and separate the individual pieces of wood.
- 3 Cut 8 pieces of the pallet wood into 36-inch boards while being cautious of extra nails.
- 4 Connect two pieces of wood on their sides with a pneumatic stapler to create an L-frame.
- 5 Repeat with the remaining 6 pieces of wood to create a total of 4 L-frames. These will be the corners of the bar cart frame.
- 6 Connect two L-brackets together with 22 1/2-inch long horizontal boards. Repeat with other two L-brackets. Do this by attaching the horizontal boards on the inside corners of the L-frames with a pneumatic stapler. This creates the front and back faces.
- 7 Then connect the two front and back faces separated by a 14-inch horizontal boards. This will create a frame connecting the four corners together.
- 8 Use filler boards to make the front and side faces of the bar cart frame a flush surface. Attach with pneumatic stapler. Leave the back face open.
- 9 Gather approximately 30 pieces of pallet wood that have been cut and prepare the boards with a wire brush to smooth and remove excess dirt and debris. Blow away excess dust with a landscape blower.
- 10 Before you begin painting, read the can label for proper application and safety instructions. Paint 20 boards with Krylon COLORmaxx Paint + Primer in Satin Ivory and 10 boards with Krylon COLORmaxx Paint + Primer in Gloss Khaki with 2 - 3 coats. Allow to dry.
- 11 Once fully dry, attach the painted boards diagonally in varying colors for a striping effect to the front face of the cart. Attach horizontal boards to the two sides of the cart. Leave the back face open.
- 12 Flip the cart on its side and attach two horizontal boards with the pneumatic stapler. Fasten the casters in each corner of the bar cart.
- 13 Create the top of the bar cart by making a flush rectangle 36 inches by 16 inches. Pneumatic staple this to the top of the bar cart.
- 14 For additional details, add extra boards on the inside of the bar cart to create storage and shelving. Also, cut notches with a jigsaw for hanging glasses and bottle storage. You may also cut boards with notches to hang towels on the sides of the cart.
- 15 Enjoy your newly designed bar cart!

## Argyle Beverage Tub

by Roxi Phillips

Serve your summer-time drinks from this stylish beverage tub!

SKILL LEVEL:

PROJECT TIME: 3 HRS (plus drying time)

### MATERIALS

- **Krylon® Fusion All-In-One™ Paint + Primer**  
Red Pepper, Patriotic Blue
- **Krylon Paint Pen**  
White, Ocean Blue
- Galvanized tub: 5.5 gallon
- Adhesive-backed vinyl
- Craft scissors
- Tape measure
- Masking tape and paper
- Craft paper

### INSTRUCTIONS

- 1 Prepare tub by cleaning it well.
- 2 Mask edges and handles with tape.
- 3 Turn upside down on masked table and spray with Krylon Fusion in Red Pepper; allow to dry completely.
- 4 On craft paper, make a diamond shape template.
- 5 To determine the dimensions for the diamond template, measure the height of the tub between the edges, and for the width, the measurement around the center of the tub divided by eight.
- 6 Adjust to best fit your particular tub.
- 7 Use the diamond template to trace onto adhesive-backed vinyl and cut out eight diamonds.
- 8 Position and adhere diamond masks onto sides of tub.
- 9 Spray masked tub with Krylon Fusion in Patriotic Blue.
- 10 Carefully remove masks before paint is completely dry to avoid peeling paint.
- 11 Allow to dry completely.
- 12 Using Krylon Paint Pen in Ocean Blue, outline each of the red diamonds; allow to dry.
- 13 Using the craft paper diamond template you created in step three, and a Krylon Paint Pen in White, draw small stitches overlapping red diamonds.
