

# KITCHEN CABINET MEASURE GUIDE

## Tools Needed:

- Tape measure
- Pen
- Paper
- Calculator

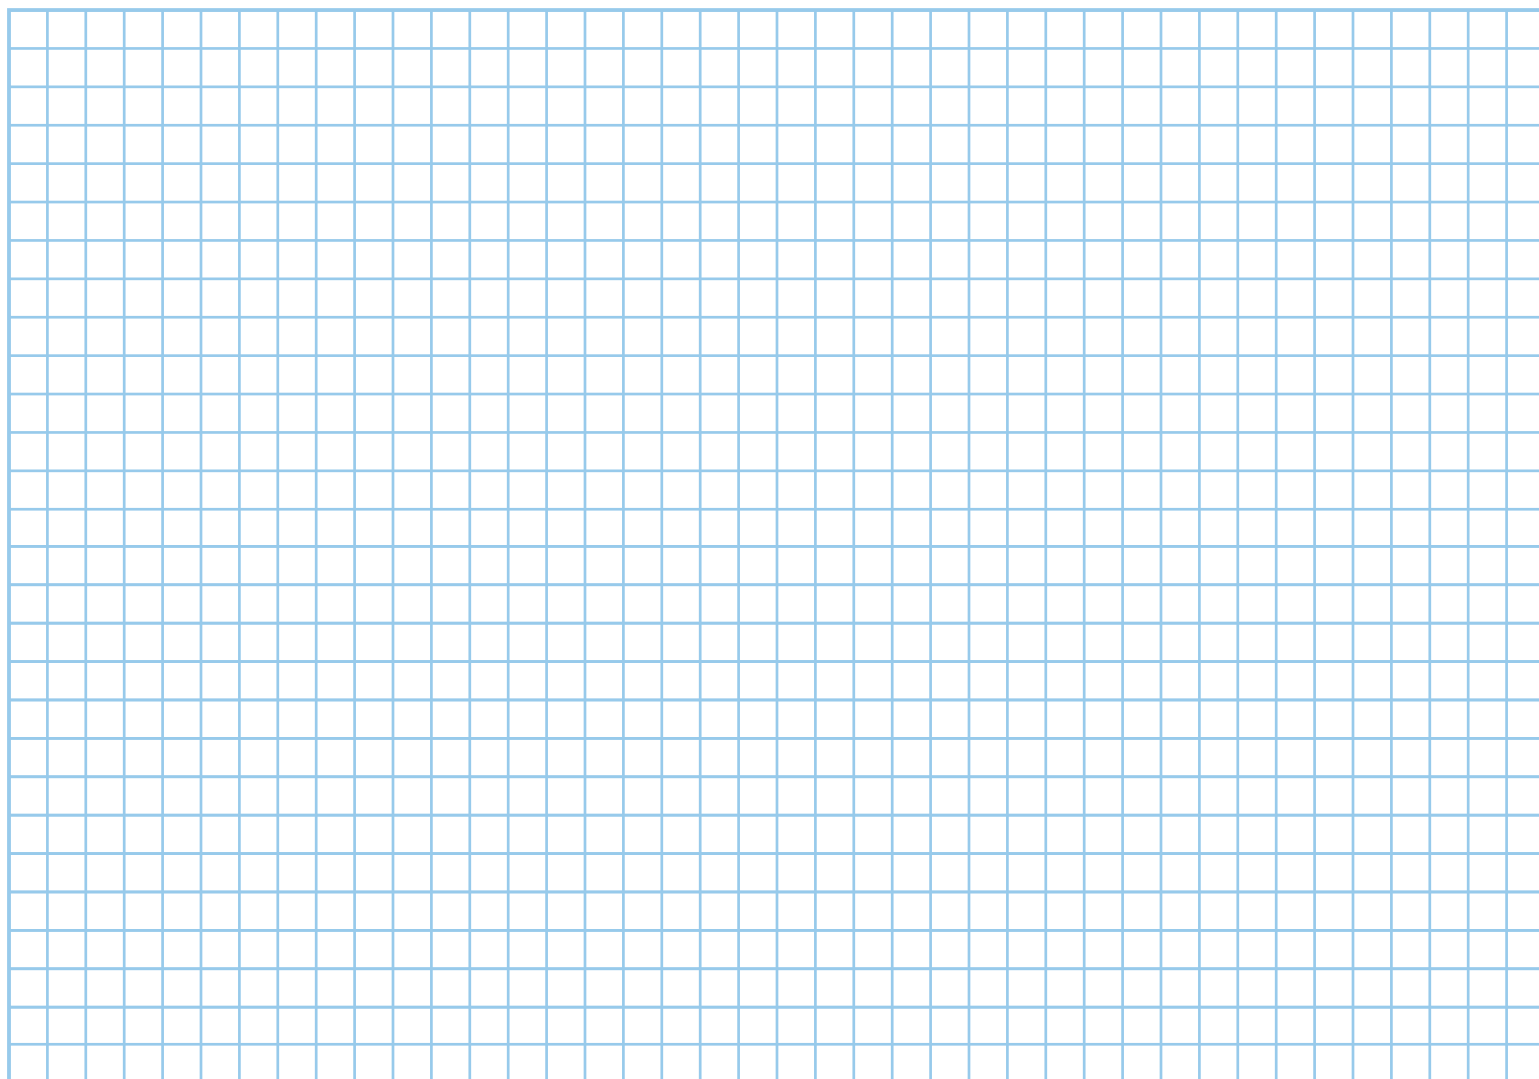

## How to Measure:

1. Measure the total length of each wall first, then the windows, doors & wall space between each
2. Record your measurements in inches.
3. When measuring doors & windows, measure from outside of trim
4. Mark location of existing sink, stove, refrigerator & any venting & A/C vents
5. Indicate depth & height of soffit if present
6. Write down flooring type, any flooring transitions & any flooring that will be replaced
7. Record ceiling height

**DON'T FORGET TO TAKE A PICTURE OF YOUR SPACE**

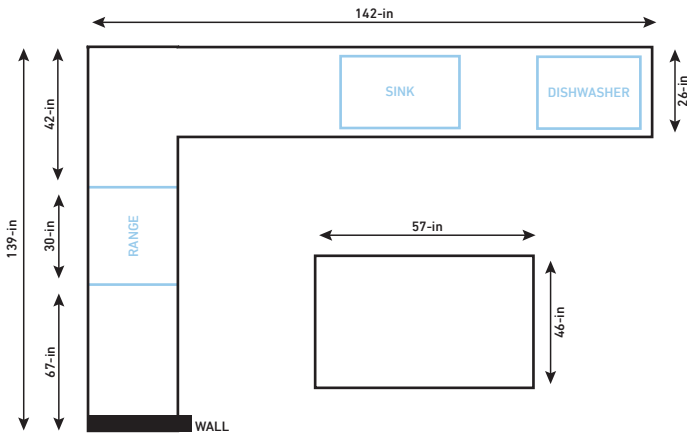

*See page 2 for example & linear footage calculation.*
