Unmodified Mortar - Mixed with water only (no additive)

Latex-modified Mortar

Please note: When installing DITRA over plywood or OSB you MUST use a latex-modified mortar or an unmodified mortar mixed with the latex additive.  
Unmodified mortars mixed with water only and will not bond to wood substrates.

Use unmodified mortar mixed with water to install ceramic, porcelain & most natural stone tiles.

## Warranty for Schluter thin-set mortars

\*Lifetime thin-set system limited warranty available when using Schluter thin-set mortars and applicable Schluter products. All products must be installed according to the applicable Schluter installation handbook(s) and/or technical data sheet(s).

IMPORTANT: In order to extend warranty coverage for Schluter®-DITRA or DITRA-XL uncoupling membranes, Schluter®-Shower System, Schluter®-KERDI or KERDI-DS waterproofing membranes, Schluter®-DITRA-HEAT, or DITRA-HEAT-DUO uncoupling membranes to lifetime coverage under this Lifetime Thin-Set System Extended Limited Warranty, Owner must complete and submit the Thin-Set System Registration to Schluter Systems, via online form ([schluter.com/schluter-us/en\\_US/registerwarranty](https://schluter.com/schluter-us/en_US/registerwarranty)), or submit proof of purchase and installation information (including installation date, installer's name and address) to Schluter Systems at the address provided hereafter within ninety (90) days of installation.

## Mapei products and warranty

\*\*10-year warranty: When using appropriate Mapei products and following ANSI requirements outlined by Schluter, a 10-year limited warranty is available from Schluter. Schluter products must be installed according to the applicable Schluter installation handbook and/or technical data sheet(s).

When using Mapei products in conjunction with Schluter Systems' waterproofing and uncoupling products, you must document date of purchase, proof of purchase, receipt of labor, and address of the installer.
